Related Screen and Execution Manual

Event Submission Management list inquiry

Action	URL	Controller method	QueryID
Inquire	/uss/ion/evt/EgovEventRcrptManageList.do	selectEventAtdrnList	"eventManageDAO.selectEventAtdrnList"
Inquire	/uss/ion/evt/EgovEventRcrptManageList.do	selectEventAtdrnList	"eventManageDAO.selectEventAtdrnListTotCnt"

10 event submission management lists are retrieved per page and paging is carried out every 10 page.
The event submission list screen is a personal screen that shows the event lists during submission period and the event participated in (submitted for) by the user event.
This is the screen where an individual applies for event participation on the event submission list screen and checks whether the application is approved or rejected.
The event details and the Apply button are only enabled for the **events during event submission period.** When **submission period** is terminated, they are disabled.
Earlier applied event lists are retrieved.
The search conditions are event classification, event year/month, event name, approval classification (before application, under application, approved and rejected).
The application (detail) fields include Apply button, under application, approved, rejected and application termination.
Press the apply button to move to the application button. Otherwise, you are moved to the details screen.

Inquire: inquire registered event submission management list.
Apply: to register a new event submission, press **Apply button** in the application (detail) field in the list to move to **event submission** screen.

Inquire in detail: click registered event submission list (apply- detail) to move to the event submission detail information screen.

Event submission application

Action	URL	Controller method	QueryID
Register	/uss/ion/evt/insertEventAtdrn.do	insertEventAtdrn	"eventManageDAO.insertEventAtdrn"

Check event submission' property information before application.
If the capacity is exceeded, the Capacity Exceeded message is displayed when the Register button is pressed..

Register: to apply a new event submission, enter event submission approver information and press **Register button** in the top.
List: move to event submission list inquiry screen.

Event submission detail inquiry

Action	URL	Controller method	QueryID
Inquire in detail	/uss/ion/evt/EgovEventRcrptDetail.do	selectEventAtdrn	"eventManageDAO.selectEventAtdrn"
Cancel application	/uss/ion/evt/deleteEventAtdrn.do	deleteEventAtdrn	"eventManageDAO.deleteEventAtdrn"

This is the event submission detail inquiry screen. Press **Cancel application button** to cancel the event submission application.
