

## Master Schedule

### Summary

The service allows users to access schedule management and team schedule management.

### Description

#### Package Dependency

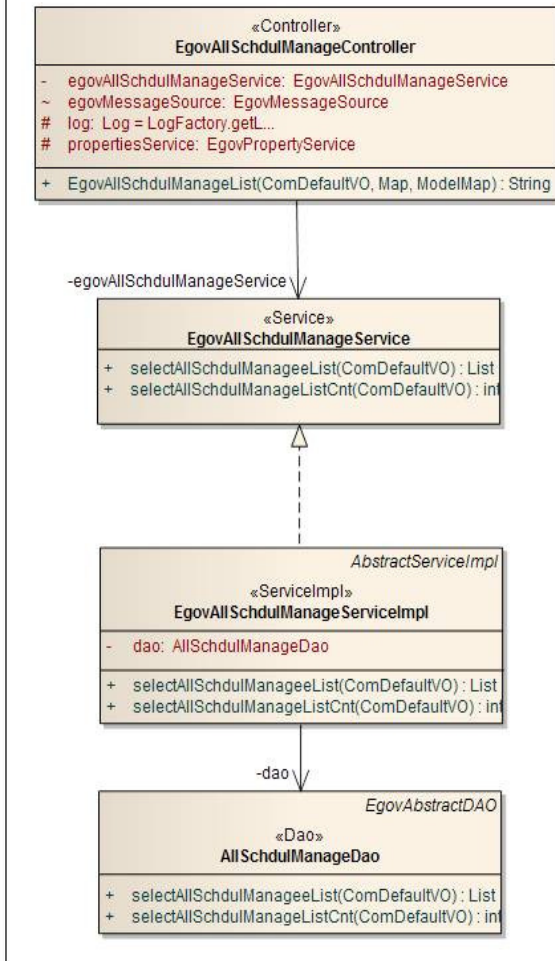

The package has direct functional dependency to the common package (cmm) of element technology and authorization management package. However, for executing without errors in component distribution, the distribution package should include format/date/calculation, schedule management, diary management and team schedule management package.

Package dependency: [package dependency on co-work Schedule, SMS, Address Book & other](#)

## Screen and execution manual

Action	URL	Controller method	QueryID
--------	-----	-------------------	---------

List Inquiry	/cop/smt/sam/EgovAllSchdulManageList.do	egovAllSchdulManageList	"AllSchdulManage.selectIndvdlSchdulManage",
			"AllSchdulManage.selectIndvdlSchdulManageCnt"

Master Schedule List lists 10 searched results per page, and 10 pages at a time. Search results list the register, event name, and event details.

If you want to adjust the display settings, edit the context.properties.xml's pageUnit and pageSize fields. (Note that this will affect all the other common service features.)
