

User Support – Note Management

Overview

Note Management provides a function that a user can send his note information to other users.

Description

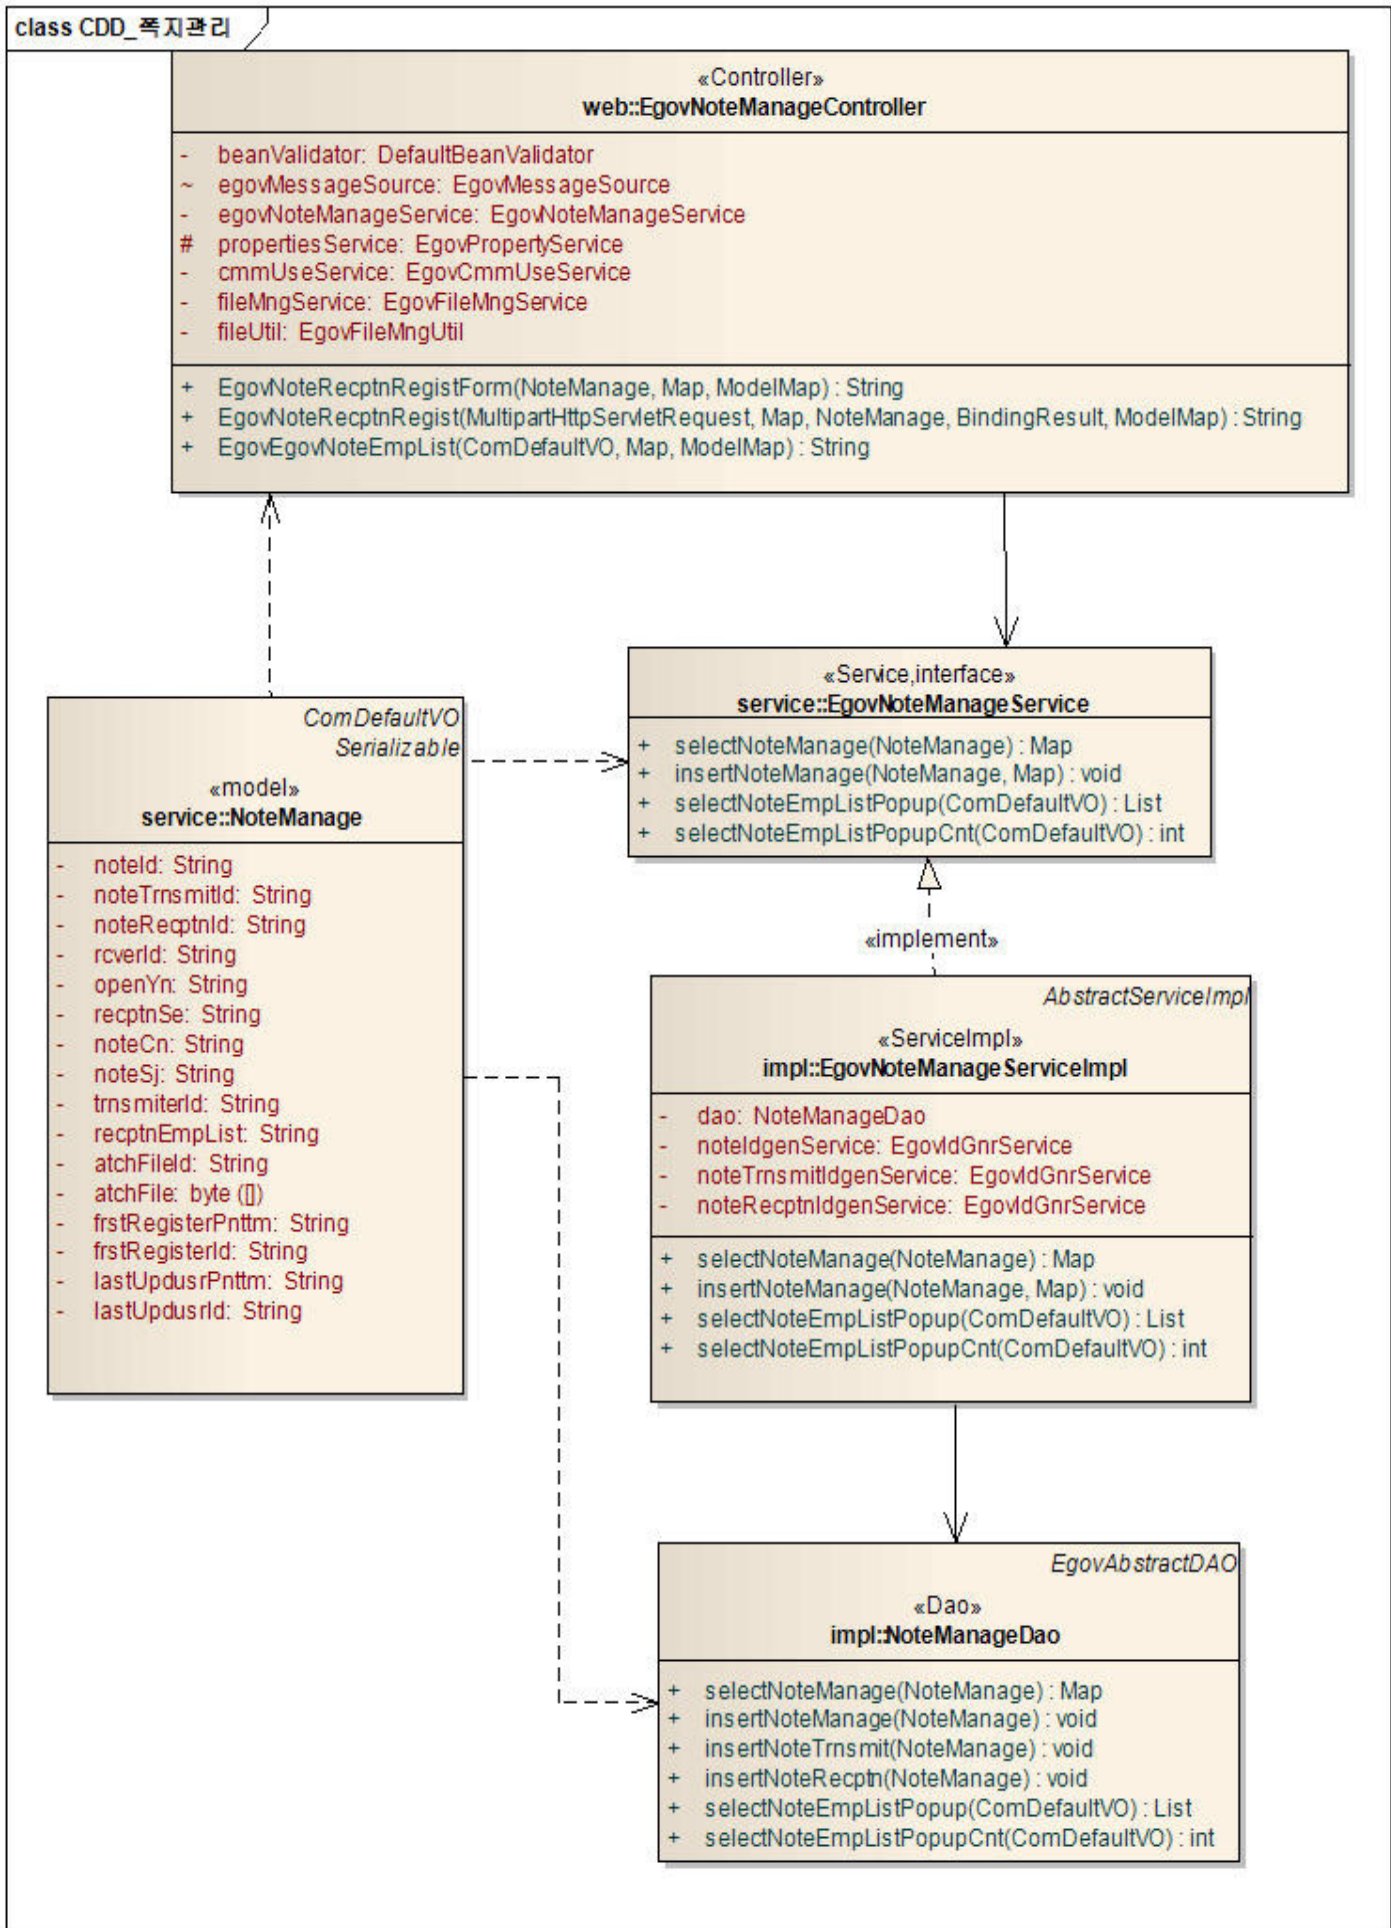

- **Note Management** aims to send a note and provides functions of registration, modification, deletion, inquiry and list inquiry.

- ① Send Note: create and send a note to other users.
- ② Select To and Cc: a popup window to select To and Cc.

Class Diagram

Related Tables

Table name	Table name (English)	Note
Note Management	COMTNNOTE	Define and manage the property information to manage note information.
Received note box management	COMTNNOTERECPTN	Define and manage the property information to manage the Received note box .
Sent note box management	COMTNNOTETRNSMIT	Define and manage the property information to manage the Sent note box .

ID Generation

- In order to use ID Generation Service, add **NOTE_ID**, **NOTE_TRNSMIT_ID** and **NOTE_RECPTN_ID** to COMTECOPSEQ, the sequence storing table.

```
INSERT INTO COMTECOPSEQ VALUES('NOTE_ID',0);
INSERT INTO COMTECOPSEQ VALUES('NOTE_TRNSMIT_ID',0);
INSERT INTO COMTECOPSEQ VALUES('NOTE_RECPTN_ID',0);
```
