FTP Information for Registration, Update and Delete

You can control the FTP information in ‘Common(User Admin)>Services Management>FTP Services Management’. You can change the properties

FTP.CFG.id and FTP.BATCH.id in globals.properties when ‘FTP Interwork Number’ changes. FTP Directory of FTP Information is based on FTP Home of FTP Server.

ex) Where the FTP server is rooted from '/root/usr/' and the FTP directory is '/WEB-INF/resources/', the batch files are repositied in 'root/usr/WEB-INF/resources/'.
