⑦ 1 2 3 4 5 6 7 8 9 10

- Result of job execution failed or suspended is registered in pages for inquiry.
- If you need to filter out the approved batch requests, you can choose Search Condition (①) and configure title of job and Job Instance ID. Input the desired keyword in Keyword Input (②) (Keyword Input is deactivated when all search conditions are deselected) and click on Search (④) to start conditional search.
- Results are searchable by Date of Execution (③). Pop-up the calendar to choose the date and look up the jobs.

- Click on Initialization (⑤) for instant initialization of all search conditions. Note that you cannot manually delete the search conditions otherwise.
- Click on Title of Job (Batch) (⑥) to move on to the detailed inquiry.
- Click on (⑦) to move between pages.
 1. Click on Number to move on to the page of the concerned number.
 2. ⏮: Move on to the previous page list (a page list contains 10 pages)
 3. ⏪: Move on to the ensuing page list (a page list contains 10 pages)
 4. ⏴: Moves back to Page 1.
 5. ⏵: Moves forward to the last Page.
 6. Note that arrows does not appear when less than 10 pages (less than 100 results) are available.
