Nexus

Summary

This document provides a guide to Nexus Management Configuration by eGovFrame.

Description

The Next Management configuration provides convenient way to manage settings by integrating setting information such as Nexus repository info that had to be managed manually.

Manual

Nexus Configuration

1. Select eGovFrame > Configuration > Server Connection Management > Nexus in the eGovFrame menu.

Piciect Bun	eGovframe Min	dow	Help

~					

I. Release: If checked, the latest version is used for libraries.

II. Snapshots: If checked, it would trace the latest library version at every build processes. If existing library is out-of-date, a new version is downloaded.

Manage Nexus Repository for each Project

1. Select a target project in the eGovFrame Perspective, right-click on it, and select Properties in the contextual menu.
