### ICon

Provide most used icons for mobile applications. The icon provided by default is composed of the white icon shape and semi-transparent back circle background and can make a harmony with any background color.

## **Base Code**

Designate the icon name as the **data-icon** value to add an icon.

Home

<a href="#" data-role="button" data-icon="home">Home</a>

## Location of icon

By default, the icon added to a button is located to the left of the button content. Add **data-iconpos** to the right, up, down of the button content.

```
left
right
up
down
<a href="#" data-role="button" data-icon="gear" data-iconpos="left">left</a>
<a href="#" data-role="button" data-icon="gear" data-iconpos="right">right</a>
<a href="#" data-role="button" data-icon="gear" data-iconpos="top">up</a>
<a href="#" data-role="button" data-icon="gear" data-iconpos="bottom">down</a>
<a href="#" data-role="button" data-icon="gear" data-iconpos="bottom">down</a>
<a href="#" data-role="button" data-icon="gear" data-iconpos="bottom">down</a>
<a href="#" data-role="button" data-icon="gear" data-iconpos="top">up</a>
<a href="#" data-role="button" data-icon="gear" data-iconpos="bottom">down</a>
<a href="#" data-role="button" data-icon="gear" data-iconpos="bottom">down</a>
</a>
You can designate data-iconpos value to "notext" to ensure that the button will have the icon only.
</a>
<a href="#" data-role="button" data-icon="gear" data-iconpos="notext">gear</a>
```

#### **20 Default Icons**

Insert icon names to data-icon property to create icons.

arrow-l			
<u>arrow-r</u>			
<u>arrow-u</u>			
<u>arrow-d</u>			
<u>delete</u>			
<u>plus</u>			
<u>minus</u>			
<u>check</u>			
<u>gear</u>			
<u>refresh</u>			
<u>forward</u>			
<u>back</u>			
<u>grid</u>			
<u>star</u>			
<u>alert</u>			
<u>info</u>			
<u>search</u>			
<u>home</u>			
<u>phone</u>			
mail			

#### **Custom Icons**

In the e-government mobile standard framework, change the basic CSS style applied to icons to use custom icons. In order to use custom icons, designate data-icon values to unique names. To keep uniformity with the existing icons, designate the icon sizes to 18X18 pixels and store images with -8 and alpha transparency settings.

# chat magnify piggy egov .ui-icon-[ideal\_icon\_name] {

background-image: url(/images/egovframework/mbl/cmm/[icon\_filename]); background-repeat: no-repeat;

}

## **Icon Color Designation**

Apply themes to **data-theme** to change icon colors.
